1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Iohara (US 5,733,656) alone or optionally taken with Applicant admission at page 4 lines 4-5 of spec. .

The invention defined in a product by process claim is a PRODUCT, not a process. In re Bridgeford, 357 F. 2d 679. It is the patentability of the product claimed and NOT of the recited process steps which must be established. In re Brown, 459 F.2d 53.

Hence, the product defined by the product by process claims 2-6 is the polyester combined filament yarn of claim 1.

Applicant admits at page 4 of the spec that Fig 1 show a cross sectional view of the polyester multifilament yarn A according to the invention.

Iohara, **Teijin Limited Patent**, teaches a polyester combined filament yarn having the same cross sectional polyester multifilament yarn A (as applicant admission) show in Fig 3 with the claimed core portion conditions (a) to (c) and combined heat shrinkable polyester multifilament yarn B. See fig 3, abstract, col.9 lines15-30, col.7 lines 56-end, col.8 lines 1-31, for example.

No claims are allowed.
